Boy who was ftolen from his Mother Returns to Her-His Ad-ventures—Successful Efforts to Find Him.

AFTER MANY YEARS

Boston Herald: "Boston people generally, but more especially the friends of Dr. John Dixwell, general agent for the society for the recovery of lost, stolen or abused children, will be pleased to learn that, largely through the doctor's unwearied exertions, the boy Alphor 20 Carrera, who disappeared in a very mysterious manner from his home in this city some six years ago, has been recovered and is the doctor's unwearied exertions, the boy Alphor 20 Carrera, who disappeared in a very mysterious manner from his home in this city some six years ago, has been recovered and is now at his home with his mother, an aged Spanish lady residing at Garden street arch. Much has been written about this remarkable case, so that a brief resume is all that is necessary to refresh the memories of Herald readers. The essential points are substantially as follows: About six years ago the lad, then about eleven years of age, suddenly disappeared from his home in this city, and for a long time nothing could be ascertained as to his whereabouts. The case was placed in Dr. D. weil's hands, and after a long and patient investigation he arrived at the conclusion that the little tellow had been taken aboard a ship sailing under the Italian flag to central Africa, and there sold into slavery. After working on this clue several years it was given up as worthless, and for a long time there was not the slightest hope extertained that the boy would ever be recovered, though Dr. D.xwell worked increasantly. From information received he finally became convinced that Carrera had been taken to Spain, and the result of that conviction is the tetura of the lad to his mother. The assistance of the resident Spanish consul was ob ained, that gentleman doing all within his power to ascertain the lost child's whereabouts. He was finally located at Bircelona, where he was employed by one John Tripa, proprietor of a large livery stable, in a square called Pino. A letter was immediately started for home, taking passage in an Eaglish steamer from Cadiz for New York, where he arrived a veral days ago. When he landed in New York the little fellow had but one dollar in his possession. Nothing dannted, however, he continued on his journey, arriving in this city yesterday. He was immediately taken by Dr. Dixwell those he was taken aboard the Italian ship Rossa, then about to sail from this port, as a ad bir bay, but sha the name and port, as a ad bir bay,

The distinguished soldier and patriot, General William O. During his travels he has obtained a very fair knowledge of the Spanish, Italian, French and Portuguese languages, and can speak English fairly well. He will be placed at work on a farm somewhere in the western part of the State, having expressed a preference for that kind of employment.

Barring Accidents, Dr. Tanner will Have Accomplished the Mitherto-Considered Impossible Feat of Entirely Abstaining from Food for Forty Consecutive Days.

At One O'Clock This Morning there was Nothing in His Condition to Warrant the Belief that He Would Not Successfully Make the Experiment.

New York, August 6,—Dr. Tanner entered upon the last day of his fast at noon to day. His pain is intense, and ever since last night every move he makes either induces emesis or causes eructations of gas. Chemical analysis of the fluid from his s'omach, it is claimed, shows that the fast has been honestly conducted. Every hour he walks around the inclosure without assistance, so that spectators may see him. At one o'clock this morning he was quite sick, and fifteen minutes later he was tying on a cot with his knees drawn up to his stomach. He asked the watchers to notice his breathing without giving a reason therefor. His and fitteen minutes later he was lying on a cot with his knees drawn up to his stomach. He asked the watchers to notice his breathing without giving a reason therefor. His respiration was found to be fourteen to the minute, and natural. He fell asleep again, but soon after made an effort to vomit, but he brought up only a small quantity of matter. After a sleep of an hour the doctor again drew himself up in a heap and soon had another attack of nausea, vomiting up mucos and water. A suggestion that a mustard plaster be put on his stomach was scouted by the doctor, who said nothing would relieve the discomfort but beef, wine and iron. He remained quiet and comfortable until nearly eight o'clock, when he rjected from his stomach two ounces of water tinged with bile. He was given at a quarter past eight two and a half ounces of water, which was soon followed by another attack of nausea. A mustard footbath made him quite comfortable again, however. At ten o'clock the doctor drank four ounces of water, and then, descending to the lower ball, walked one lap. He repeated his pedcestrian performance at eleven and at two o'clock, and in the interval drank three ounces of water. At noon he declared his condition good. Two proposals of marriage and an offer from a Chicago lyceum manager for the doctor to lecture through the western States were smong the morning mail. A very large crowd was in the hall.

At two o'clock this afternoon Dr. Tanner was given four ounces of water, and immediately after was attacked with nausea and vomiting, and at fifteen past three o'clock his temperature was found to be 99; pulse, 69; respiration, 13; weight, 122 pounds, loss of half a pound within the past twenty-four hours. The dynammeter in his right hand registered from another attack of sickness. While out driving he again suffered from nausea and vomiting. In Central park he imbleed five ounces of water. At half-past seven o'clock he returned to Clarkson hall, walking upstairs without assistance, and reclined on a cot in the anteroom fo

closure. After this he again retired fo his room and drank an ounce of water which his stomach rejected. At half-past eight at night he ascended to the gall-ry, and shortly afterward he retired. He was soundly sleeping at nine o'c'ock, but half an hour later awoke and had his head sponged with coid water before he d z:d off agaic. Nothing further worthy of note up to the time of writing. It is estimated that about two thousand persons visited the hall during the day to see the faster.

Special to the Appeal. I

NASHVILLE, August 6.—George K. Whitworth has been elected county trustee instead of Winham, supposed to have been successful last night. All four of the county officers elect are Democrats. C. C. Gowdy, colored, was re-elected constable of Nashville, having led the ticket, Democrats and Republicans voting for him alike. The interest in the primaries to select delegates to the Democratic gubernatorial convention to-day was unprecedented. Almost as large a number of votes were cast as at a regular election; the young men, especially, turned out en masse. The delegates are almost unanimousity in favor of State credit.

Without counting the reient additional troops occupied by the Afghan war, there are sixty thousand, of which number forty thousand are within the frontier of Afghanistan. Soughar, where Ayoob Khan was reported on the first instant, is midway between Khusknakud and Hyderabad, thirty miles apart. The recent battle between General Burrows and Ayoob Khan's forces was fought a few miles north of Kuhaki-Nakhudi. The Afghans, therefore, instead of advancing, must have fallen back a short distance.

New York World: "Benjamin Knowles and his wife, of No. 416 Halsey street, Newark, were tried yesterday on a charge of beating Mary Satchwell, who had been hired by them at an orphan asylum. Lillie D ivis and Ruth C. Patterson, neighbors, testified that they had heard the girl scream and the sound of blows inflicted apparently with a stick and a strap or a slipper. Cornelius Paxton, another neighbor, gave a similar testimony. The girl herself testified that the defendants treated her kindly and that she preferred their house to the asylum. Knowles had struck her once with his crutch and once with a strap and his wife had beaten her with a switch, but her punishments at the asylum had been more frequent and more severe. She added that she was in the habit of crying without cause. The defendants were found guilty of assault and battery."
